

# Two Types of Grant Support

## 1. Grants with Credit

Choosing a grant with credit allows you to support our mission while experiencing unique opportunities for personal spiritual growth. **After 18 months**, these credits are redeemable over the following 12 months and may include:

- **Visits to Sacred Sites** like Vrindavan and Jagannath Temple.
- **Spiritual Gifts** such as books, e-commerce products, and sacred items.
- **Meetings with Gurus** for personal guidance on inner peace and resilience.

↓ Grants with credit help fund our **e-commerce platform**, enabling devotees to receive **prashad, idols, and other spiritual items** from temple stores, delivering spiritual blessings worldwide.

## 2. Grants without Credit

For those who wish to contribute anonymously, **grants without credit** offer a way to support Athaa Anand without expecting recognition. This option allows your gift to fully support:

- **New Programs** like virtual pilgrimages and workshops.
- **Subsidized Services** for underprivileged individuals.
- **Operational Support** essential to sustaining Athaa Anand's vision.

↓ This selfless choice helps us spread spiritual transformation globally, driven by pure generosity and compassion.

## How Your Support Transforms Lives

To fully operationalize Athaa Anand, we seek \$1 million to expand our reach. Every contribution powers our infrastructure and programs, making a direct impact:

- **\$X,000**: Supports virtual pilgrimages for 50 devotees.
- **\$XX,000**: Creates a new spiritual program for thousands worldwide.
- **\$XX,000**: Expands **Devotee 360**, providing personalized spiritual guidance.

Whether through credit or without, your support builds a community of love, peace, and spiritual enrichment. Thank you for believing in Athaa Anand and joining our mission to transform lives.
